To Our Valued Customers,

On the morning of April 3, a 7.4 magnitude earthquake struck the eastern side of Taiwan in rural Hualien County, approximately 93 miles from the capital of Taipei.

Sherex Taiwan, situated in Chungli City in the northwestern part of the country, experienced no damage, and all employees are safe. Sherex Taiwan is currently operating as usual, and we will promptly advise if any issues arise.

Our thoughts are with those who were impacted by this severe earthquake.

Thank you,
